

PRODUCT INFORMATION

Clone ID DM52

Target GITR Ligand

Synonyms TNFSF18; AITRL; TL6; hGITRL; GITR Ligand

Host Species Rabbit

Description Anti-GITR Ligand antibody(DM52); Rabbit mAb

Delivery In Stock **Uniprot ID** Q9UNG2 IgG type Rabbit IgG Clonality Monoclonal Reactivity Human

Applications ELISA; Flow Cyt

Recommended

Storage & Shipping

Background

ELISA 1:5000-10000; Flow Cyt 1:100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Reconstitution

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in

lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).

Lyophilized proteins are shipped at ambient

temperature.

The protein encoded by this gene is a cytokine that belongs to the tumor necrosis factor (TNF) ligand family. This cytokine is a ligand for receptor TNFRSF18:AITR:GITR. It has been shown

to modulate T lymphocyte survival in peripheral tissues. This cytokine is also found to be

expressed in endothelial cells; and is thought to

be important for interaction between T lymphocytes and endothelial cells.

Usage Research use only

Conjugate Unconjugated

All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under
