

PRODUCT INFORMATION

5B10 Clone ID **Target CD93**

Svnonvms C1qR(P);C1QR1;C1qRP;CDw93;dJ737E23.1;ECSM3;MXRA4

Host Species Rabbit

Biotinylated Anti-CD93 antibody(5B10), IgG1 Chimeric **Description**

mAb

Delivery 2-3 weeks Q9NPY3 **Uniprot ID**

Rabbit/Human Fc chimeric IgG1 IgG type

Clonality Monoclonal Human Reactivity Flow Cyt **Applications**

Recommended

Background

DIMA Disclaimer

Flow Cyt 1/100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % – 8% trehalose is added as protectants before lyophilization. Formulation & Please see Certificate of Analysis for specific instructions Reconstitution

of reconstitution.

Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped Storage & Shipping

at ambient temperature.

The protein encoded by this gene is a cell-surface glycoprotein and type I membrane protein that was originally identified as a myeloid cell-specific marker. The encoded protein was once thought to be a receptor for C1q, but now is thought to instead be involved in intercellular adhesion and in the clearance of apoptotic

cells. The intracellular cytoplasmic tail of this protein has been found to interact with moesin, a protein known to play a role in linking transmembrane proteins to the cytoskeleton and in the remodelling of the cytoskeleton.

[provided by RefSeq, Jul 2008]

Usage Research use only Conjugate Biotinylated

> All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are actively scrutinizing all patent application to ensure no IP infringement.
