

PRODUCT INFORMATION

Clone ID 1B8 GPC1 **Target**

Synonyms Glypican 1;PC1

Host Species Rabbit

Biotinylated Anti-GPC1 antibody(1B8); IgG1 Description

Chimeric mAb

Delivery 2-3 weeks **Uniprot ID** P35052

Rabbit/Human Fc chimeric IgG1 IgG type

Clonality Monoclonal Reactivity Human **Applications** Flow Cyt

Recommended

Flow Cyt 1/100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Reconstitution

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

intended for use within a month, aliquot and store Storage & Shipping at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient

temperature.

Cell surface heparan sulfate proteoglycans are composed of a membrane-associated protein core substituted with a variable number of heparan sulfate chains. Members of the glypican-related

integral membrane proteoglycan family (GRIPS) **Background** contain a core protein anchored to the

cytoplasmic membrane via a glycosyl phosphatidylinositol linkage. These proteins may

play a role in the control of cell division and growth regulation. [provided by RefSeq, Jul 2008]

Usage Research use only

Conjugate Biotinylated

> All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or

DIMA Disclaimer reverse engineering attempt is prohibited. We are

actively scrutinizing all patent application to ensure no IP infringement.
