Hu\_GPR75 C-Strep CHO-S Cell Line Pool Cat. No. CEL100110

## **PRODUCT INFORMATION**

Target	GPR75
Description	Monoclonal Cell Line Derived from CHO-S Cells, Engineered for Stable Expression of Human GPR75 Using Lentiviral Technology
Host Cells	CHO-S
Uniprot ID	O95800
Applications	FACS Data
Growth media	DMEM+10% FBS+1% P.S+Gln+2 ug/mL Puromycin
Package	5E6 Cells/mL
Host Species	Human
Suggested Control	SKU: DMC100368
Warranty and Disclaimer Storage & Shipping	<ol> <li>Please inspect cells upon receipt and report any issues promptly.</li> <li>We offer one-time replacements for issues reported within a week of receipt.</li> <li>User-induced issues are not eligible for free replacements.</li> <li>We do not accept liability for damages resulting from cell use, storage, or loss.</li> <li>Feedback received more than one month after receipt will not be processed.</li> <li>Cells are shipped using dry ice and require liquid pitragen storage for loss form processing.</li> </ol>
Synonyms	nitrogen storage for long term preservation. Probable G-protein coupled receptor 75
Background	GPR75 is a member of the G protein-coupled receptor family. GPRs are cell surface receptors that activate guanine-nucleotide binding proteins upon the binding of a ligand.[supplied by OMIM, Jul 2002]
Usage	For research use only.
