Cat. No. FLP100168

Formulation & Reconstitution

Background

PRODUCT INFORMATION

Tag C-Flag Tag **Target** 5HT2C

Synonyms 5-HT1C, 5-HT2C, 5-HTR2C, 5HTR2C, HTR1C Human 5HT2C full length protein-synthetic **Description**

nanodisc **Delivery** 6~8weeks **Uniprot ID** P28335 **Expression Host HEK293**

Protein Families GPCR, Transmembrane, Druggable Genome,

GPCRDB Class A Rhodopsin-like, Monoamine **Protein Pathways** GPCRs, Metabolic and Obesity,

The human full length 5HT2C protein has a MW of **Molecular Weight**

51.8kDa

Lyophilized from nanodisc solubilization buffer (20 mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5% – 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions. Do not use solvents with

a pH below 6.5 or those containing high concentrations of divalent metal ions (greater than 5 mM) in subsequent experiments. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store

Storage & Shipping at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient

temperature.

This gene encodes a seven-transmembrane G-protein-coupled receptor. The encoded protein

responds to signaling through the

neurotransmitter serotonin. The mRNA of this gene is subject to multiple RNA editing events, where adenosine residues encoded by the genome are converted to inosines. RNA editing is predicted to alter the structure of the second intracellular loop, thereby generating alternate protein forms with decreased ability to interact with G proteins. Abnormalities in RNA editing of this gene have been detected in victims of suicide

that suffer from depression. In addition, naturallyoccuring variation in the promoter and 5' noncoding and coding regions of this gene may show statistically-significant association with mental illness and behavioral disorders. Alternative splicing results in multiple different transcript variants. [provided by RefSeq, Jan 2015]
