Background

PRODUCT INFORMATION

C-Flag Tag Tag CLDN5 **Target**

AWAL; BEC1; CPETRL1; TMDVCF; TMVCF **Synonyms** Human CLDN5 full length protein-synthetic **Description**

nanodisc **Delivery** In Stock **Uniprot ID** 000501 **Expression Host HEK293**

Protein Families Transmembrane

Cell adhesion molecules (CAMs), Leukocyte **Protein Pathways** transendothelial migration, Tight junction

The human full length CLDN5 protein has a MW of **Molecular Weight**

23.1 kDa This protein is a member of the claudin family.

Claudins are integral membrane proteins and components of tight junction strands. Tight junction strands serve as a physical barrier to prevent solutes and water from passing freely through the paracellular space between epithelial or endothelial cell sheets. Mutations in this gene have been found in patients with velocardiofacial

syndrome.

Lyophilized from nanodisc solubilization buffer (20

mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5% 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis

Formulation & Reconstitution for specific instructions. Do not use solvents with a pH below 6.5 or those containing high

concentrations of divalent metal ions (greater than 5 mM) in subsequent experiments. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

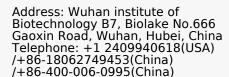

> Email: info@dimabio.com Website: www.dimabio.com

intended for use within a month, aliquot and store at -80°C(Avoid repeated freezing and thawing). Storage & Shipping Lyophilized proteins are shipped at ambient

temperature.

Usage Research use only

Conjugate Unconjugated

ELISA assay to evaluate CLDN5-Nanodisc 0.2µg Human CLDN5-Nanodisc per well

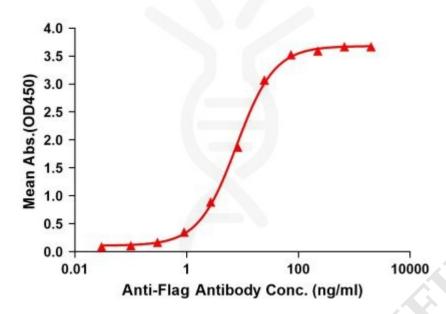

Figure 1. Elisa plates were pre-coated with Flag Tag CLDN5-Nanodisc ($0.2\mu g/per$ well). Serial diluted anti-Flag monoclonal antibody solutions were added, washed, and incubated with secondary antibody before Elisa reading. From above data, the EC50 for anti-Flag monoclonal antibody binding with CLDN5-Nanodisc is $7.814 \mu g/ml$.

Figure 2. Human CLDN5-Nanodisc, Flag Tag on SDS-PAGE
