

## **PRODUCT INFORMATION**

| Тад                             | C-Flag Tag   |
|---------------------------------|--|
| Target                          | LPAR2  |
| Synonyms                        | EDG-4, EDG4, LPA-2, LPA2   |
| Description                     | Human LPAR2 full length protein-synthetic<br>nanodisc  |
| Delivery                        | 6~8weeks   |
| Uniprot ID                      | Q9HBW0   |
| <b>Expression Host</b>          | HEK293   |
| <b>Protein Families</b>         | GPCR,Transmembrane,Druggable Genome,   |
| Protein Pathways                | Cancer,G-Protein Coupled Receptors Signaling<br>Pathway,   |
| Molecular Weight                | The human full length LPAR2 protein has a MW of 38.7kDa  |
| Formulation &<br>Reconstitution | Lyophilized from nanodisc solubilization buffer (20<br>mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5%<br>– 8% trehalose is added as protectants before<br>lyophilization. Please see Certificate of Analysis<br>for specific instructions. Do not use solvents with<br>a pH below 6.5 or those containing high<br>concentrations of divalent metal ions (greater<br>than 5 mM) in subsequent experiments.  |
| Storage & Shipping              | Store at -20°C to -80°C for 12 months in<br>lyophilized form. After reconstitution, if not<br>intended for use within a month, aliquot and store<br>at -80°C (Avoid repeated freezing and thawing).<br>Lyophilized proteins are shipped at ambient<br>temperature.   |
| Background                      | This gene encodes a member of family I of the G<br>protein-coupled receptors, as well as the EDG<br>family of proteins. This protein functions as a<br>lysophosphatidic acid (LPA) receptor and<br>contributes to Ca2+ mobilization, a critical<br>cellular response to LPA in cells, through<br>association with Gi and Gq proteins. An<br>alternative splice variant has been described but<br>its full length sequence has not been determined.<br>[provided by RefSeq, Jul 2008] |
| Usage                           | Research use only  |
| Conjugate                       | Unconjugated   |
