

## **PRODUCT INFORMATION**

| Tag                             | C-Flag&Strep Tag   |
|---------------------------------|--|
| Target                          | VDAC1  |
| Synonyms                        | PORIN, VDAC-1  |
| Description                     | Human VDAC1-Strep full length protein-synthetic nanodisc   |
| Delivery                        | 6~8weeks   |
| Uniprot ID                      | P21796   |
| Expression Host                 | HEK293   |
| <b>Protein Families</b>         | Ion Channels: Other  |
| Protein Pathways                | N/A  |
| Molecular Weight                | The human full length VDAC1-Strep protein has a MW of 30.8 kDa   |
| Formulation &<br>Reconstitution | Lyophilized from nanodisc solubilization buffer (20<br>mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5%<br>- 8% trehalose is added as protectants before<br>lyophilization. Please see Certificate of Analysis<br>for specific instructions. Do not use solvents with<br>a pH below 6.5 or those containing high<br>concentrations of divalent metal ions (greater<br>than 5 mM) in subsequent experiments.  |
| Storage & Shipping              | Store at -20°C to -80°C for 12 months in<br>lyophilized form. After reconstitution, if not<br>intended for use within a month, aliquot and store<br>at -80°C (Avoid repeated freezing and thawing).<br>Lyophilized proteins are shipped at ambient<br>temperature.   |
| Background                      | This gene encodes a voltage-dependent anion<br>channel protein that is a major component of the<br>outer mitochondrial membrane. The encoded<br>protein facilitates the exchange of metabolites<br>and ions across the outer mitochondrial<br>membrane and may regulate mitochondrial<br>functions. This protein also forms channels in the<br>plasma membrane and may be involved in<br>transmembrane electron transport. Alternate<br>splicing results in multiple transcript variants.<br>Multiple pseudogenes of this gene are found on<br>chromosomes 1, 2 3, 6, 9, 12, X and Y.[provided<br>by RefSeq, Sep 2010] |
| Usage                           | Research use only  |
| Conjugate                       | Unconjugated   |
|                                 |  |
