

## **PRODUCT INFORMATION**

Clone ID DM186 AMHR2 **Target** 

AMHR; MISR2; MISRII; MRII **Synonyms** 

**Host Species** Rabbit

PE-conjugated Anti-AMHR2 antibody(DM186); Description

Rabbit mAb

**Delivery Under Development** 

**Uniprot ID** Q16671 Rabbit IgG IgG type Clonality Monoclonal Reactivity Human Flow Cyt **Applications** 

Recommended

Flow Cyt 1:100 **Dilutions** 

Purified from cell culture supernatant by affinity **Purification** 

chromatography

Formulation & Reconstitution

**Background** 

Liquid PBS with 0.05% Proclin300, 1% BSA

Storage & Shipping Store at 2°C-8°C for 6 months

> This gene encodes the receptor for the anti-Mullerian hormone (AMH) which; in addition to testosterone; results in male sex differentiation. AMH and testosterone are produced in the testes by different cells and have different effects. Testosterone promotes the development of male genitalia while the binding of AMH to the encoded

> receptor prevents the development of the mullerian ducts into uterus and Fallopian tubes. Mutations in this gene are associated with persistent Mullerian duct syndrome type II. Alternatively spliced transcript variants encoding

different isoforms have been identified.

Usage Research use only Conjugate PE-conjugated

All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are **DIMA Disclaimer**
