Cat. No. DME100146P

PRODUCT INFORMATION

Clone ID DM146 **Target** CD155

PVR; FLJ25946; PVS; CD155; TAGE4; HVED; **Synonyms**

NECL5

Host Species Rabbit

PE-conjugated Anti-CD155 antibody(DM146); **Description**

Rabbit mAb

3-4 weeks **Delivery Uniprot ID** P15151 IgG type Rabbit IgG Clonality Monoclonal

Reactivity Human **Applications** Flow Cyt

Recommended

Formulation &

Background

Flow Cyt 1:100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Liquid

☐PBS with 0.05% Proclin300, 1% BSA Reconstitution

Storage & Shipping Store at 2°C-8°C for 6 months

> The protein encoded by this gene is a transmembrane glycoprotein belonging to the immunoglobulin superfamily. The external domain mediates cell attachment to the

extracellular matrix molecule vitronectin; while its

intracellular domain interacts with the dynein light chain Tctex-1:DYNLT1. The gene is specific to the primate lineage; and serves as a cellular receptor for poliovirus. Multiple traceio de light and light

poliovirus replication. Multiple transcript variants encoding different isoforms have been found for

this gene.

Usage Research use only

Conjugate PE-conjugated
